When it comes to putting them on the stage it is a recognised national trait of the French that they are prone to affairs. It is constitutionally imposncerned about their intrigues. What in and women of other nations might content to look upon as a firtation and be content-aye even relieved-to maider nothing more important, must

tery and circumstance.

This is ever the treatment of the question of the triangle on the French stage. It must be remembered, however, that this is on the stage and that none of these observations is the result ind the other certain person. Indeed ubject has never been able to create he impression that the question was ulso the absorbing problem of life. It may be that the playwrights who send these reations to the outer world are holding the mirror up to French nature. It seems more probable, however, that they are supplying the boulevards with what they want in the theatre.

Last week in "The Torches" Henry Rataille showed how a French playwright may surround an ordinary adulterous episode with all sorts of misode with all sorts of mis-

The drama new at the Playhouse last In the drama new at the Playhouse last night suggested these thoughts. Grace George selected for the second work of her stock season "L'Elevation," by Henry Bernstein, So it was she rather than the Theatre du Visux Colombier which showed New York the last word in the French theatre. M. Bernstein's play, which has enjoyed nearly a year of success at the Comedie Francaise, was the first play of importance dealing with first play of importance dealing with the present war. It has been a great success there and must have consoled the author for all the slights which fol-lowed "Apres Moi." New York heard it in the vernacular for the first time

M. Bernstein, like other skilful play vrights, knows how to keep up the in-erest of the public in its favorite topic. Although the author was dealing with material so familiar to the French stage he touched his subject with deeper sincerity than any of the Bernstein plays since "The Thief" have revealed to American audienose. Crime of the Well Made Play. It may be that M. Bernstein will be accused of the crime of the well made play. But that old charge must be ineffective in view of the clarity with effective in view of the clarity with which his mastery of form, when it is permeated with sincere purpose, reveals his meaning. The dialogue at the beginning of the play showed the formality which is so often to be found in translations and is so far from humanity. But with the progress of the play this fault was less noticeable. Indeed, the audience was keenly interested in every scene and its applause had the ring of sincerity. Grace George had surrounded herself with players capable of bringing out the best in the new play. Her own acting was splendidly natural and sincere. Every peculiarity and mannerism which of her intelligent and skilful playing fell away in the opportunity to act a genuine part. She has rarely been seen to such advantage. Rich Quality.

Alice Sovereign, contralto, gave her annual song recital yesterday afternoon in Acolian Hall. With a voice of an unusually rich quality and an extended lower range the singer was at her best, in such songs as Schubert's "Der Juengling und der Tod." or Massenet's "Crepusule," which had to be repeated.

In Lisat's "Jeanne d'Are au Bucher" much of the music lay above the singer's nuch of the music lay above the singer's

Miss Sovereign showed a commendable vocal technic and good taste, together with admirable feeling, but her delivery as a whole lost much in interest owing to her lack of color, subtlety and imagination. It was in such songs as Strauss's "Staendchen" that the loss of these qualities was prominently noted. In a final group there was a new arrangement by Burleigh of "Swing Low, Sweet Charlot," and a new song by Osborne. "Under the Greenwood Tree." Waiter Golde furnished good accompaniments.
